WHAT IS AND HOW TO USE THE MARS MINERAL DISPOSITION MAP

- This is the map of the province that contains:
 - Boundaries and features
 - i. Provincial boundary
 - Base information
 - i. Major cities
 - ii. Major water bodies
 - iii. Major rivers
 - iv. Main highways
 - Restrictions and Prohibitions
 - i. Parks
 - ii. Crown reserves
 - iii. Indian reserves
 - iv. Urban municipalities
 - v. Land claims
 - vi. Manual restrictions
 - Mineral dispositions
 - i. Reopening lands
 - ii. Active mineral dispositions
 - iii. Pending dispositions
 - iv. Lapsed features
 - Provincial Grids
 - i. NTS grid_1:250k
 - ii. NTS grid_1:50K
 - iii. Saskatchewan Grid
 - iv. Selection Grid

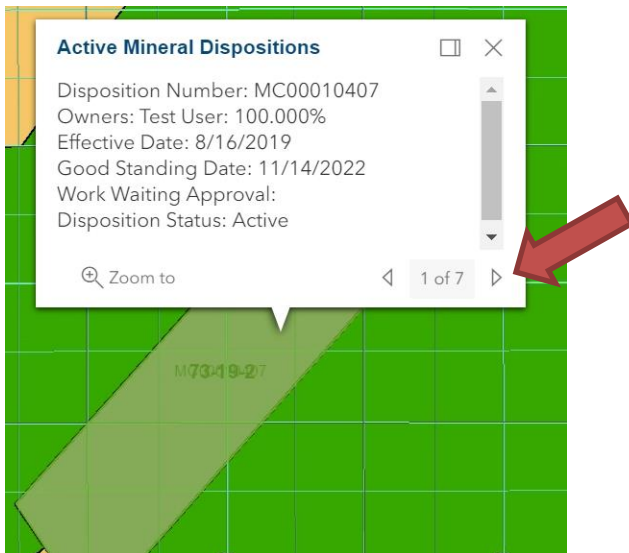

- If you click on the “+” sign it expands the legend.

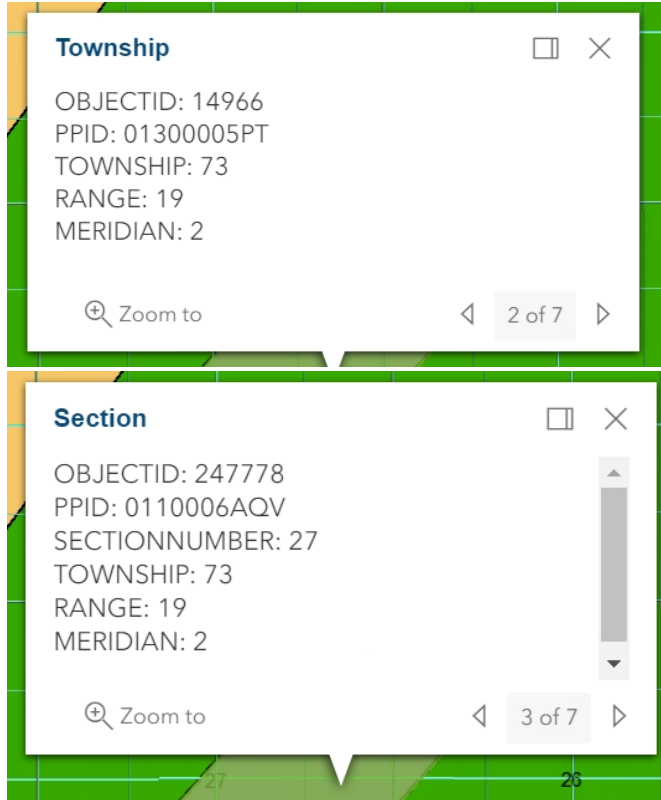

1. Navigation Tools – These tools are the same as in the Saskatchewan Geological Atlas (GeoAtlas)

Mineral Disposition Map

- a. Identify tool  – This tool allows the user to identify features
 - i. Zoom into the map to the disposition that you would like information on
 - ii. Click the “  ” then click the disposition, this will bring up the “Identify Features” pop up

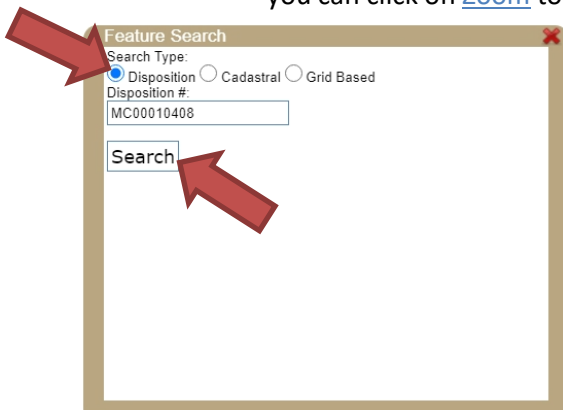

This will display the disposition number and other details of the disposition, including:

- i. Owner's name
 - ii. Effective Date
 - iii. Good Standing Date
 - iv. Work awaiting approval
 - v. Status
 - vi. Section - Township – Range – Meridian
- b. Query tool  – this allows the user to find a disposition on the map. This can be done in 2 ways:

- i. Enter the disposition number, and click "Search". When the feature comes up you can click on [Zoom](#) to zoom to the disposition.

- ii. After clicking on “Grid Based”, enter the land location you are interested in then click “Search”. When the feature comes up with [Zoom](#), you can click on [Zoom](#) and it will zoom to your request.

2. Selection Tools

- Use selection tools (  ) to draw a point, a polygon or a rectangle:
 - i.  Draw a point – This will select/highlight the LSD selected.
 - ii.  Draw a polygon – This allows you to easily select large areas of land. Click inside the first mineral disposition parcel you want, then drag the line and click to add additional points along the boundary of the polygon. Finish off your polygon by double clicking your last point. All mineral disposition parcels inside the polygon or intersected by its boundary will be selected.
 - iii.  Draw a rectangle

- Use Reshape button () to change the shape of your selection.
- Use Transform tool () to move or resize the selection feature.
- Use  |  to undo or redo previous selection.
- Use  to delete the whole selection.

 - 6. Manual restrictions
 - c. Prohibitions
 - i. Not available for staking
4. Search book button:
- a. This is updated nightly.
 - b. It is available in multiple formats, including CSV, MS Excel and PDF.

NOTE: CSV format works best for use in a spreadsheet (e.g .MS Excel) after removing first 3 rows, which are above the column names.
 - c. It gives you most of the information that you would receive from a search abstract on any particular disposition, except that it covers all mineral dispositions in the province.

NOTE: This is a large file and may take a few minutes to display.

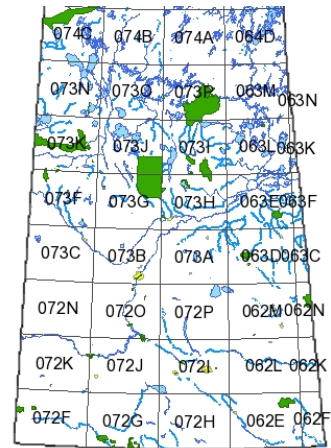

REOPENING BOARD

- From the home page or once you have signed in, click on the “Reopening Board” tab.

At the bottom right, there is a status bar with the text "Last validated on: Feb 25, 2021 04:06:42 (revalidate)" and two buttons: "Continue" and "Cancel".

- Click "Validate".

- Once Validated, you will see that the selected area you wish to surrender shows color “red”.
- Once you are satisfied with your selection click “Continue”.

- This will bring up a screen showing that the surrender has been successfully processed.
- The surrender application is automatically approved when requirements met.

- The surrendered portion of your claim will be yellow on the map and will be put into a MARS reopening at a later date.

How to Convert from a Legacy Claim to Lease

- You will need to send in a request to the MARS Help desk MARS@gov.sk.ca.
- The requestor needs to have signing authority from the company to request a conversion from lease to claim and must submit the required fee of \$250.00 per lease with the application.
- When your request has been processed by a MARS administrator, you will receive an email from MARS that the conversion is complete.

How to Convert from Lease to Claim

- You will need to send in a request to the MARS Help desk MARS@gov.sk.ca.
- The requestor needs to have signing authority from the company to request a conversion from lease to claim, there is no required fee.
- When your request has been processed by a MARS administrator you will receive an email from MARS that the conversion is complete.

Assessment Work Successfully Submitted
Assessment Work 2354 successfully submitted.

21. Send in the digital copy of your assessment work to The MARS Administrator.

22. THIS MUST BE RECEIVED BEFORE THE earliest IN GOOD STANDING DATE for the dispositions in the MAW.

TIPS

- If you have your MAW saved as a draft, you can locate it by clicking on the disposition tab on the left-hand side "assessment work search" enter in the MAW number.

SUBMITTING REALLOCATION OF WORK CREDITS

1. Upon the review of your MAW, the assessment work geologist may disallow a portion of the credits requested. When this happens, you may submit a deficiency deposit to cover the shortfall or reallocate the reduced credit to the existing grouping of claims in your MAW. This section of the manual addresses the reallocation of expenditures. The Mineral Tenure Regulations section 67 part (1) and part (2) covers this topic.
2. The holder will receive an email that the expenditure has been reduced. You have 10 business days to make the necessary corrections.
3. In MARS, access the MAW for which grouping of expenditures is to be reallocated.
4. The top right-hand side has "Reallocate Expenditure List"
5. Adjust your credits as needed and click "Submit."

ADDING DEFICIENCY DEPOSITS

1. Sign into MARS.
2. Click on the “DISPOSITION” tab.
3. On the left-hand side of the page, go into the “Disposition list” and select the disposition.
4. Click on “Work Credits” on the left-hand side and click “Make a Deficiency Deposit”.

The screenshot shows a sidebar menu on the left with the following items: Work Requirements: \$38,029.19; Avail. EXAMINE PAPER RECORDS

- Clients can view paper records and documents pertaining to a legacy disposition for \$100.00 per disposition file.
- A request needs to be submitted to MARS@gov.sk.ca with a list of the legacy dispositions that you wish to examine.
- These requests can take some time as we need to retrieve the files from storage.
- The current holder has to give permission to the requesting client to view their disposition files.
- In the case of Lapsed dispositions, there is no wait time to view the files.

INSTRUMENT REGISTRY

- *The Crown Minerals Act* governs the registry under sections 27.3(h), 27.32, 27.33 and 27.34.
- Instruments that are included in the registry include:
 - Notice of security
 - Notice of Security Interest
 - Debenture Pledge Agreement
 - Net Smelter Returns
 - Discharge of Incentive Liens
 - Discharge of Debenture
 - Notice of Royalty Interest
 - Power of Attorney
 - Purchase Agreements
 - Etc.
 - Filing of a document in the Instrument Register is not a legal requirement and is done without guaranty and for informational purpose only. The Ministry cannot be held responsible for the absence of such instrument at a later date.
- These are documents that are not available through the MARS database.
- The instruments in the registry are never deleted or removed, but a letter of discharge maybe registered against any of them at any time.
- To get information from the registry, send a request to MARS@gov.sk.ca with a list of the dispositions you wish to have searched.
- There is no fee for this service.

RECREATIONAL GOLD PANNING AND PLACER MINING

- Recreational gold panning is allowed in Saskatchewan; however, there are no specific regulations for recreational gold panning or placer mining in the province. *The Mineral Tenure Registry Regulations* are applicable to any Crown mineral rights issued for the exploration and production of gold by any means, including placer mining.
- Using a pan to test the presence of gold can be done without authorization where Crown mineral rights have not been already issued to somebody else. Mineral rights belong to the Crown, except where they are the property of a third party, who would authorize the exploration.
- Only the surface land owner can grant surface access rights. Anyone wishing to conduct gold panning must be aware of who owns the land and obtain permission from that person or entity to access the land.
- All recreational gold panning must be done with a gold pan. Sluice boxes, rocker boxes, concentrators, jigs, trammels, screens and dredges of any size or design are prohibited. No equipment, including hand shovels, can be used to move material to be panned.
- The use of any equipment other than a simple pan requires a mineral claim. If mineral exploration activity goes beyond recreational panning, please use MARS to obtain proper mineral claims or leases, or to check the availability of land for mineral exploration.
- You may also contact the MARS Help Desk for information about obtaining a mineral claim or a mineral lease. Please provide the land description (i.e., legal subdivision, section, township, range and meridian).
- No damage is to be inflicted to the bed, bank or boundary of any water body or water course. If you have questions regarding gold panning in Saskatchewan, please contact one of the following Ministry of Environment offices:
 - La Ronge - LaRongeExploration@gov.sk.ca
 - Meadow Lake - MeadowLakeExploration@gov.sk.ca
